Our story

"21st Century Zlatibor Residence, Spa & Wellness by Adora" ensures long-term income and high profitability of the investment to all apartment customers.

The complete concept was designed according to the principle of a condo apart-hotel, where the owners of the individual apartments are different individuals or legal entities, and the entire complex operates on the market under a unique brand, offering services and facilities that are competitive with conventional hotels. The complete story is also made up of professional management that manages both the facilities and the apartments with the aim of providing guests with the best service, and providing the apartment owners with a significant and stable monthly income.

How I return

MY INVESTMENT

Conceived as a hotel-residential concept, the "21st Century Residence, Spa & Wellness by Adora" complex is not an expense for customers, but it is a profitable investment that returns the invested money to apartment owners through an innovative business model of management and renting.

Our company "Adora Hospitality Group" manages the system of renting apartments, by renting them in the name and for the benefit of the owner. A high-quality service is provided for the complete maintenance of the entire building, which enables long-term preservation of the quality and value of each individual apartment and the entire complex.

This model works by allowing owners to stay whenever and however long they want in their luxury apartments, using them for their own rest, relaxation and recreation. In the rest of the time, the owners, through the contract with the company "Adora Hospitality Group", generate significant income by renting apartments, which returns the money/investment.

By signing a contract with "Adora Hospitality Group", property owners in "21st Century Zlatibor" receive outstanding management and professional service with complete maintenance, servicing and complete care of each apartment.

At the same time, Adora Hospitality Group manages all facilities (reception and lobby 24/7, restaurant, Spa & Wellness, other facilities), and apartment owners have benefits throughout the year for the use of all facilities that the complex offers.

APARTMENT OFFER

choose the future

The 21st Century Zlatibor complex offers a unique opportunity to buy an apartment. There are only a few available, out of a total of 108, fully equipped apartments that are ready to become part of your story.

ABOUT INVESTORS

Adora is a highly recognizable Macedonian construction brand, with a high international reputation, which has been a leader in high-rise construction in Macedonia for more than 20 years, through the primary activity of building high-quality revolutionary real estate. By restructuring the business, through the Adora Business Group, the company's operations are expanding into: finance, stock trading, pharmaceuticals and organic food trading throughout Europe and the Middle East.

Adora is the largest individual owner of Komercijalna banka AD Skopje, which is also the largest bank in Macedonia. The Adora Living Solutions company represents the Adora brand in Serbia, with the mission of bringing to Serbia the rich experience gained by building 400,000 m² of real estate with pioneering residential solutions.
